Education and Learning

Lifelong learning is a key theme which underpins identified actions and shapes, informs and drives the learning agenda in East Ayrshire. Raising the educational attainment and achievement of our young people is essential to preparing them for the world of work and supporting them into adulthood. In recent years, we have seen improved performance in relation to pupil attainment in our secondary schools and the percentage of our young people who have secured positive and sustained destinations on leaving school is higher than the national average.

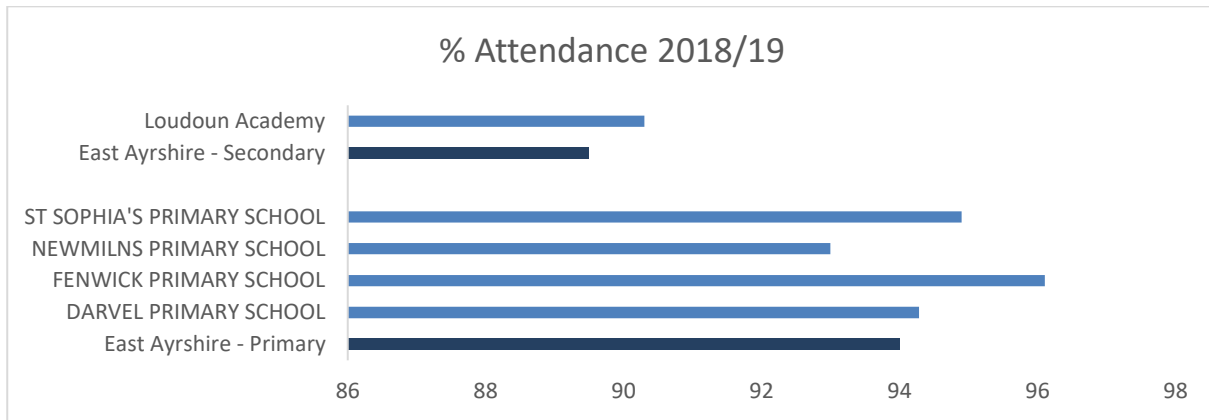

To maximise the potential of our young people and the wider workforce to deliver the capability that employers and the economy need, work is being taken forward to build stronger links between school, training, college, university and work. Investment in the Further Education sector locally and the creation of the new Ayrshire College campus at Hill Street in Kilmarnock will ensure that residents continue to prepare for job opportunities and working closely with local businesses will ensure that learning, skills and qualifications are aligned to current and future business need.
